

Finance Options for EOS Customers

e-Manufacturing Solutions
Powered by First American Vendor Finance

EOS has developed a program with **First American Vendor Finance (FAVF)** to provide you with additional options to acquire your Additive Manufacturing equipment. First American combines industry expertise and responsiveness to provide you with flexible repayment options that meet your exact needs. As a direct lender with extensive experience in technology leasing, First American offers extremely competitive lease rates and exceptional service.

It's quick and easy to use...

- 1 Simply submit completed application to your **Program Manager** who will walk you through the process* and answer any questions you may have
- 2 **App-only credit approval within 8 hours; above app-only, within 2 days** → Upon credit approval, FAVF will immediately send documents to you via DocuSign
- 3 **FAVF will place P.O. with EOS** upon execution of DocuSign or receipt of signed lease documents
- 4 Upon acceptance of equipment, **FAVF will fund EOS on your behalf**

Your peers are using leasing as a part of their financing strategy to:

Conserve cash and credit lines

Spread payments over time

Align expenses with revenue

Accounting and tax benefits
